Experience

iOS Developer

04/2022 - 08/2023

Midwestern Interactive | Joplin, Missouri

Experienced iOS Developer with 2 years of expertise in crafting intuitive interfaces and personalized features. Collaborates effectively with cross-functional teams and establishes robust client relationships. Proficient in UIKit, Core Location integration and pioneering ChatGPT for enhanced user engagement.

- Collaborated with a dynamic team of Kotlin Developers, designers, and product managers to elevate user experience.
- Crafted seamless interfaces using UIKit, prioritizing user interactions for an intuitive experience.
- Engineered a personalized weather feature utilizing Core Location and Restful Web Services, enabling users to customize temperature information in Fahrenheit and Celsius while effortlessly tracking locations.
- Established and nurtured robust client relationships, ensuring adherence to high standards and facilitating efficient project delivery.
- Design and implemented custom UI elements, aligning with the brand's visual identity through Native UIKit protocols. Ensured compatibility across current devices and future iOS updates.

Education, Certifications, and Skills

DevMountain | Certificate Of Completion

Graduated 10/2021

iOS Development | <https://www.credly.com/badges/28cca3bd-befe-4392-bdfa-e61301391b10>

Issued 02/2022

Technical Skills | Swift | SwiftUI | Objective -C | Xcode | UIKit | Auto Layout | RESTful API's | Core Data | Networking | Version Control | Git | Testing | Debugging | Multithreading | Grand Central Dispatch (GCD) | Firebase | Design Patterns | UI/UX Design Principles | Continuous Integration/Continuous Deployment(CI/CD)

Soft Skills | Communication | Creativity | Patience | Teamwork | Problem-solving | Adaptability | Time Management | Jira | Postman | TestFlight | Slack

Projects

Music Goers - Team Project(4-person team) - <https://apps.apple.com/th/app/musicgoers/id6446001172>

- Played a pivotal role within a 4-person team, contributing significantly to the identification and resolution of critical code-related bugs, ensuring a smooth and uninterrupted user experience.
- Played a pivotal role within a 4-person team, contributing significantly to the identification and resolution of critical code-related bugs, ensuring a smooth and uninterrupted user experience.
- Proficiently employed Firebase for robust data storage, managing a variety of user-related information such as login credentials, event details, locations, to-do lists, and messaging. Implemented secure authentication protocols for enhanced user data protection.
- Leveraged Figma for the creation of visually appealing and user-friendly UI designs, enhancing the overall aesthetic and usability of the application.
- Implemented MapKit to streamline location tracking of event venues, thereby enriching the user experience.

LolBuilds - Solo Project - <https://apps.apple.com/th/app/lolbuilds/id1588653972>

- Independently led the entire project, taking responsibility for comprehensive UI design across all app views. Prioritized user-friendliness through a combination of SwiftUI and Figma, ensuring an intuitive and engaging user interface.
- Independently led the entire project, taking responsibility for comprehensive UI design across all app views. Prioritized user-friendliness through a combination of SwiftUI and Figma, ensuring an intuitive and engaging user interface.
- Developed clean and reusable code while proactively identifying and swiftly resolving various code-related bugs, maintaining a high standard of code quality. Conducted regular code reviews to ensure best practices and adherence to coding standards.
- Successfully integrated multiple APIs to enhance the functionality of the app, showcasing adaptability and versatility in managing diverse data sources.
